

PROGRAM MANAGEMENT SYSTEM AND METHOD

ABSTRACT OF THE INVENTION

A method for program management is presented. A
5 governance structure is determined for a program. The
governance structure provides leadership for the program
and includes at least one member. At least one member of
the governance structure applies at least one program
management discipline to the program. At least one
10 member of the governance structure applies knowledge
management to the program. At least one member of the
governance structure applies at least one project
management methodology to at least one project associated
with the program.
